

Telegram Slot Alerts — Quick-Start Guide

Our private Telegram channel posts an alert the moment new appointment dates appear. Follow these steps to subscribe and make sure you see every alert in time.

1**Choose your plan**

Open www.earlyvisaslots.in/telegram-alerts, pick the route and duration you need and tap Subscribe.

2**Pay by UPI**

Pay with any UPI app (GPay, PhonePe, Paytm, BHIM) or scan the QR, then submit your UTR / payment reference.

3**Get your private invite**

Our alert channel is private. Once we verify your payment we send your personal invite link by e-mail / WhatsApp. Tap it and press JOIN.

4**Install Telegram**

Download Telegram from the Play Store / App Store, or use Telegram Desktop on your computer, and log in with your phone number.

5**Turn notifications ON**

Open the channel, tap the channel name, then Notifications > Unmute. Set a distinct sound so you never miss an alert.

6**Allow alerts on your phone**

Android: Settings > Apps > Telegram > Notifications > allow, and turn off battery optimisation for Telegram. iPhone: Settings > Notifications > Telegram > Allow, and keep Focus modes from silencing it.

7**Act within minutes**

Keep the official appointment portal logged in during busy hours. When an alert arrives, open the portal, choose the centre mentioned and book the date that works for you.

Your subscription runs for the period of the plan you bought; you get a renewal reminder before it ends. Note: alert messages describe availability seen on the official portal at that moment. We cannot guarantee a slot will still be open when you try to book.
